ABOUT ME

A Master of Urban Design graduate, I excel at managing the entire process from research to implementation, starting with humanistic concern and rational analysis. I believe that good design creates vibrant and sustainable public value—whether in cities or in digital interfaces.

MEDIPLUS

- ONLINE HOSPITAL

Online one-stop health platform

HEALTH, WITHIN

UI /UX Design
Casper

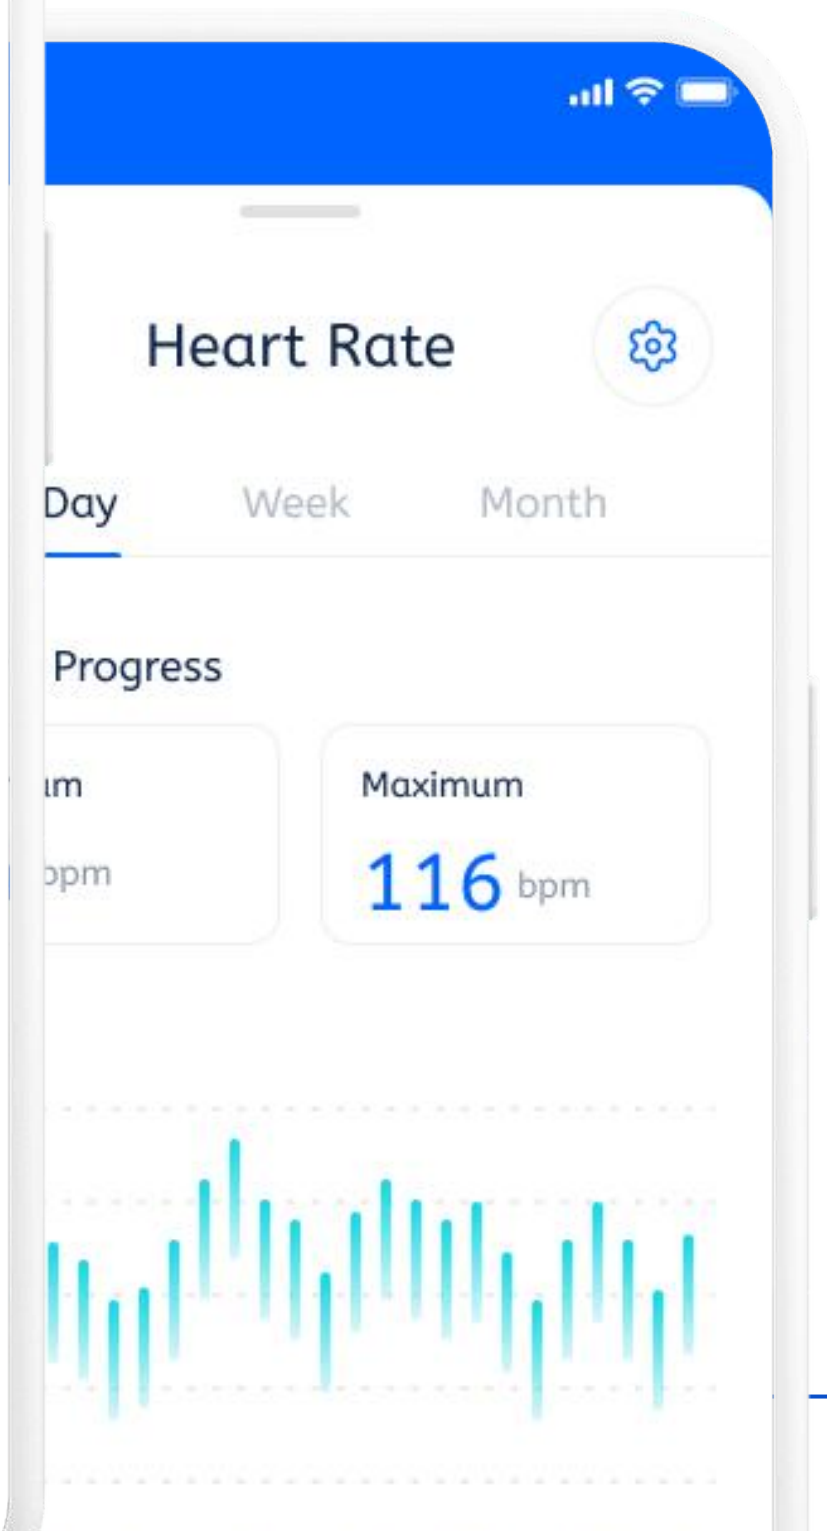

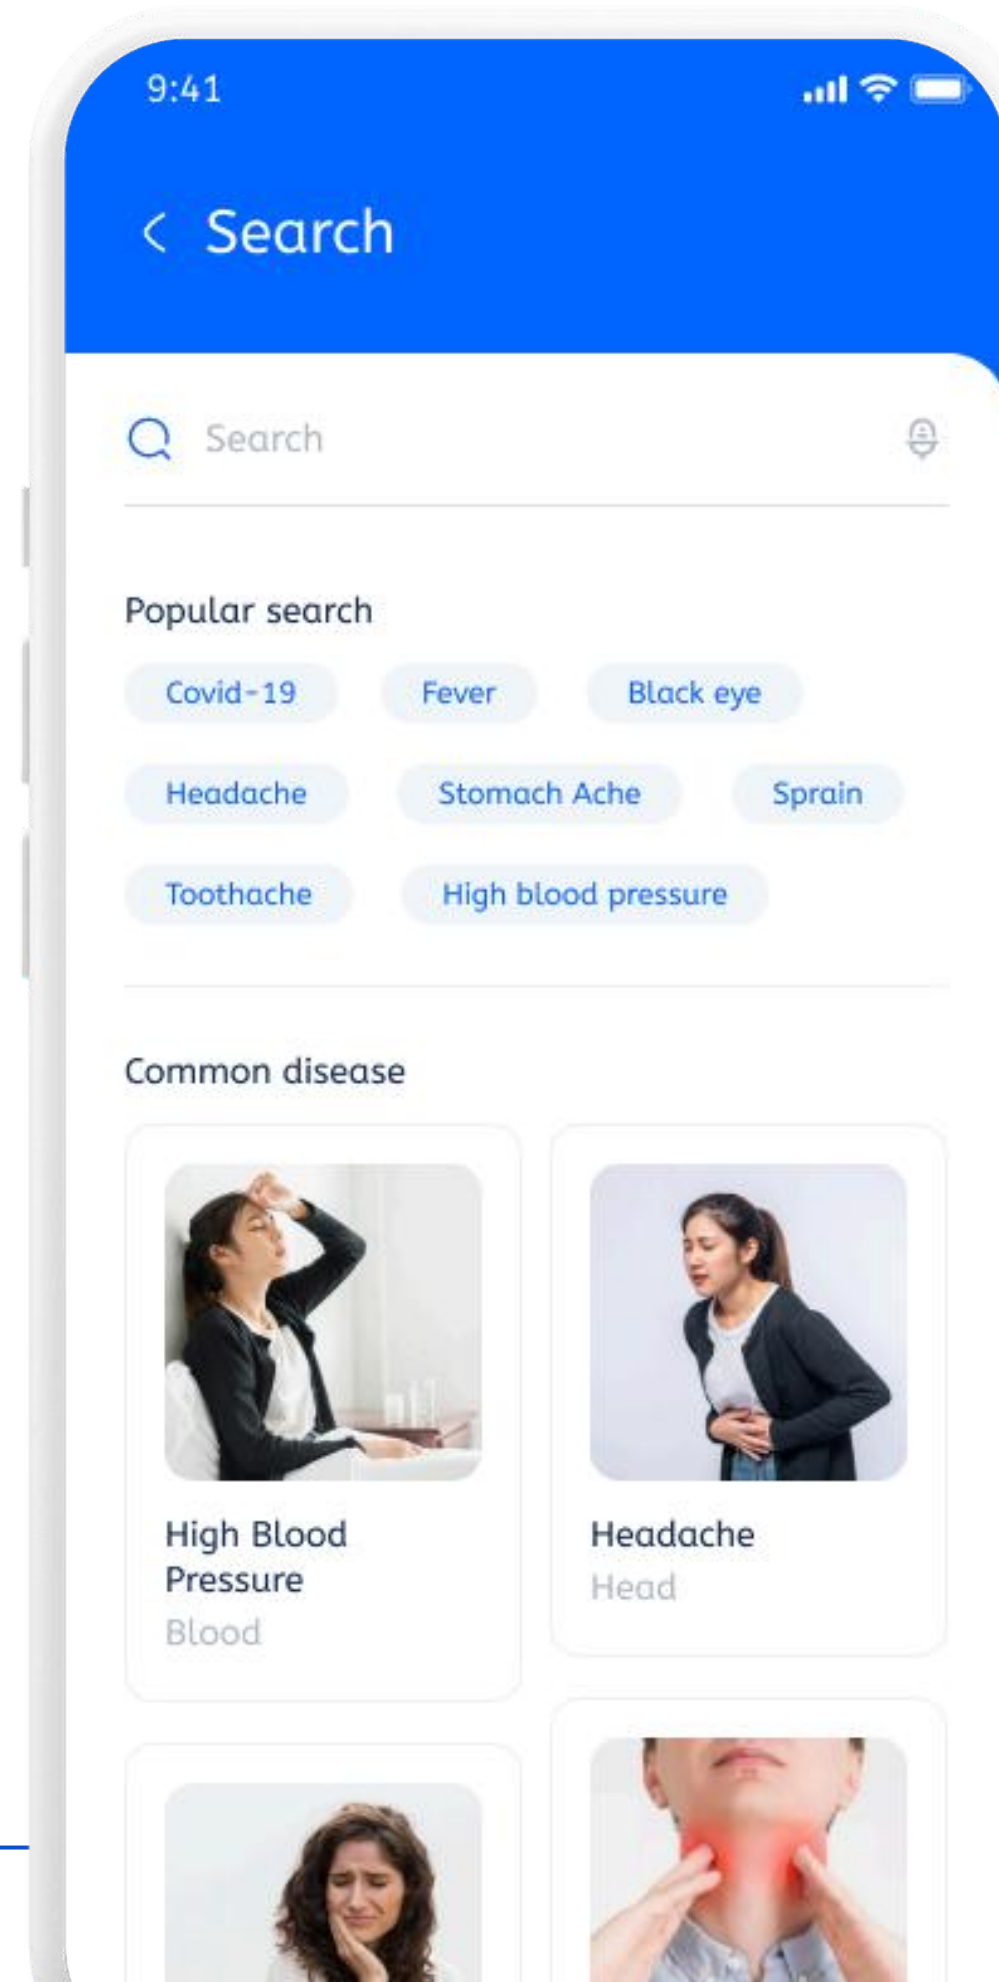

PRODUCT OVERVIEW

Product Introduction

MediPlus is a one-stop mobile healthcare APP that integrates functions such as consultation appointments, online medication purchases, health tracking, doctor-patient communication, and medical record management. It offers user-friendly operations and precise resource matching, creating an efficient full-chain healthcare service experience.

Product Introduction

Traditional healthcare faces challenges such as time-consuming registration, uneven resource distribution, and cumbersome medication purchasing. In response to the trend of digital healthcare and the public's demand for convenient medical services, this integrated online and offline mobile healthcare platform has been developed.

USER PORTRAIT

Wang Yapeng

Student
24 years old

It offers convenient services such as appointment booking without queuing, medication delivery to school, and health tracking, catering to busy students and those seeking quick medical care. The lightweight operation is worry-free and efficient.

Jack

Migrant worker
32 years old

Working in Hong Kong, unfamiliar with local medical resources and healthcare procedures, struggling to adapt to seeking medical care in a foreign place, and facing inconvenience in commuting for medical appointments.

Lee Mei Kuen

Middle-aged mom
33 years old

It is essential to balance personal and children's health, with a need for quick pediatric appointments, one-click purchases of household medicines, the ability to manage family medical records, and meeting the core demands of parenting at home without extra time for hospital visits.

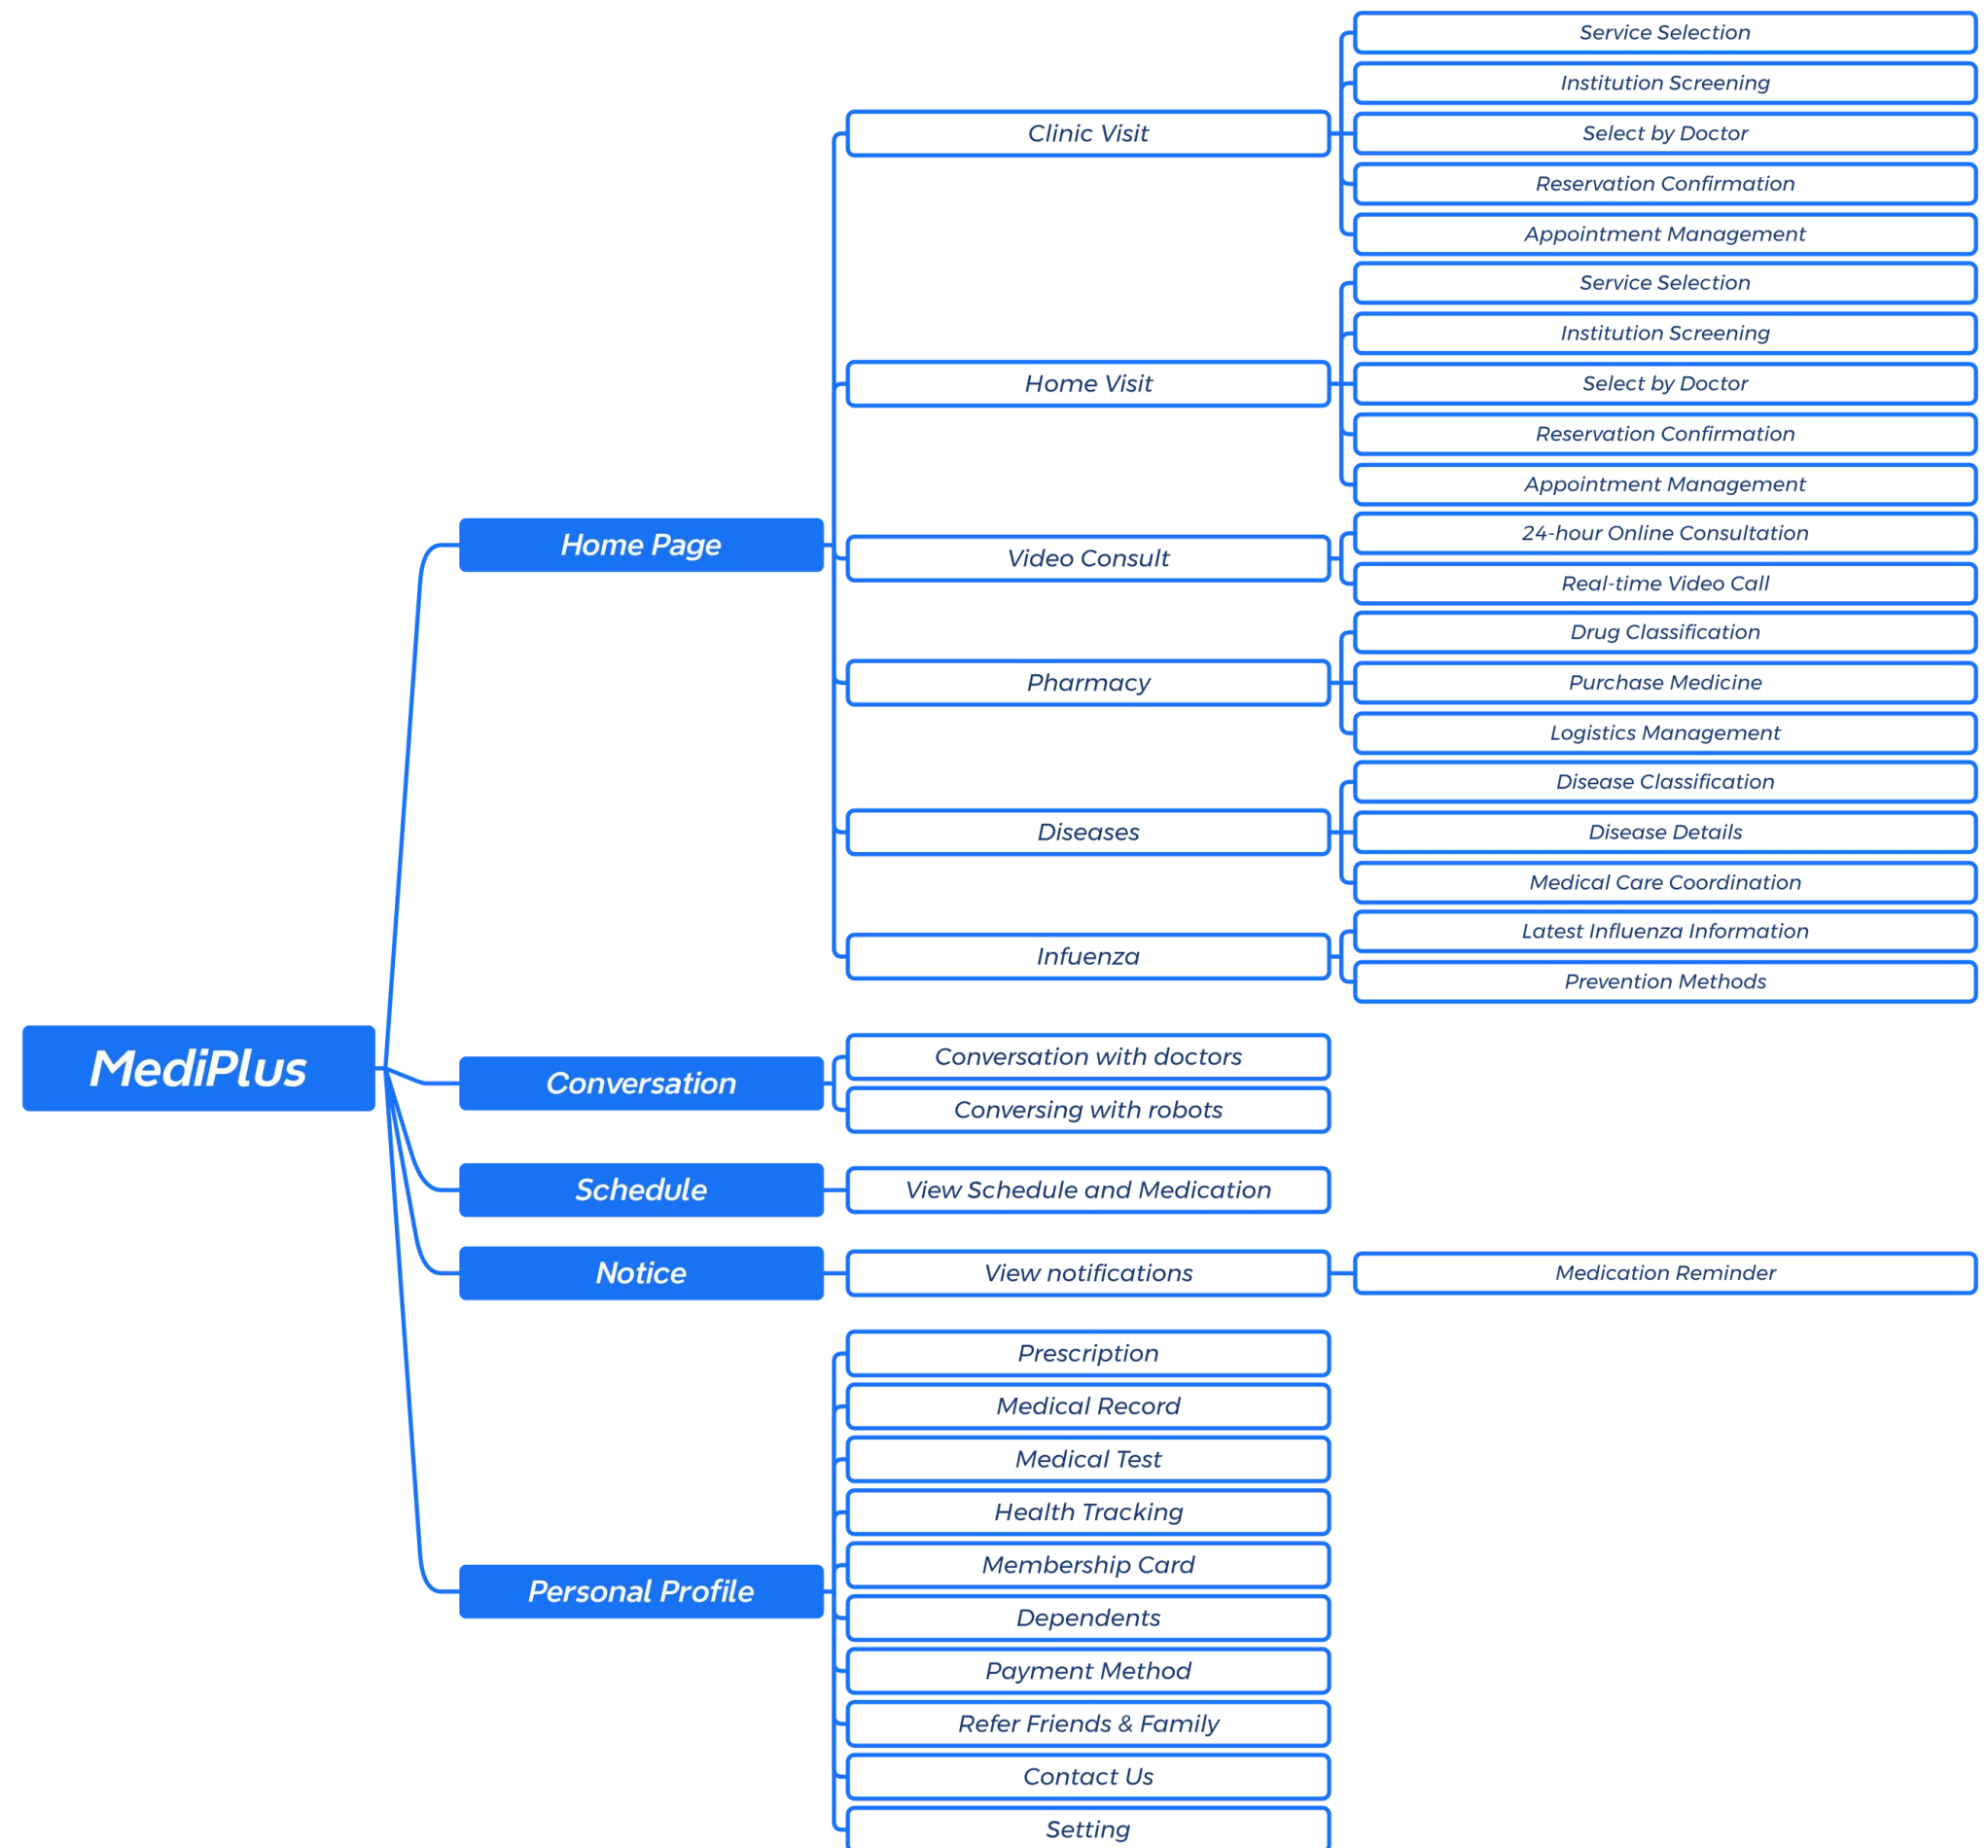

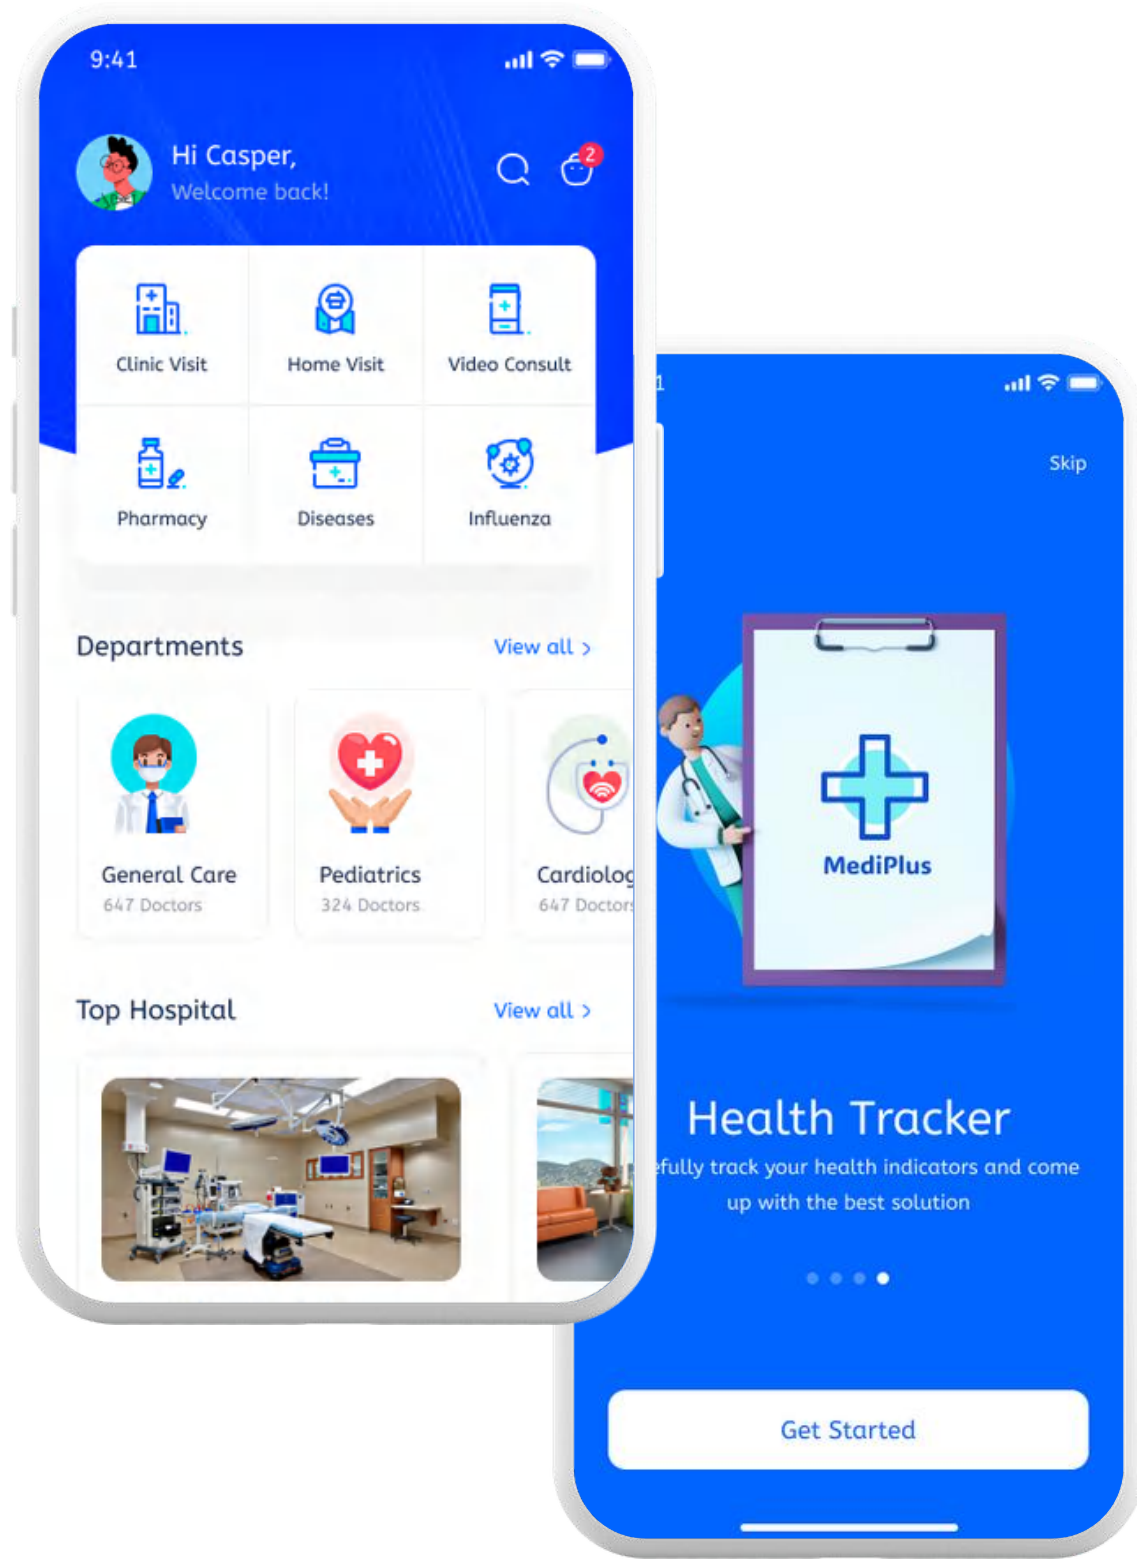

EMOTIONAL SECTION

Young, professional, and high-quality

– this mood board serves as a source of inspiration and a unified visual direction.

PROJECT

CONSTRUCTION COMPANY WEBSITE DESIGN

In designing the official website for my self-owned construction company (Virtual), I focused on the characteristics of the construction industry, simplifying the expression of text and the presentation of information. I used a combination of text and images, short texts, and professional, reliable, and sophisticated color schemes to enhance the reading experience while effectively reducing the pressure on users.

Construction solution for everyone

From scheme design to landing construction, we provide one-stop services for residential, commercial, public buildings and other scenarios with rigorous technology and mature experience, and deliver every trust with quality.

Casper Live Space

This project aims to create a multi-functional urban space integrating commerce, residence, and leisure. With innovative design concepts at its core, we combine modern architectural technology with human-centered spatial planning to create an open environment that combines aesthetic value with a vibrant atmosphere, while ensuring structural safety and functional practicality.

Project Info

Clients Casper

Category Mixed commercial and residential

Completed January 04, 2026

Twitter Facebook LinkedIn Messenger

With "human-centered design, green and low-carbon, and smart construction" as its core concepts, the project adopted open street blocks, vertical greening, and shared atriums in its spatial planning.

In terms of construction technology, we have adopted cutting-edge technologies such as prefabricated construction, BIM full-process management, and passive energy saving, which have significantly improved construction efficiency and building quality.

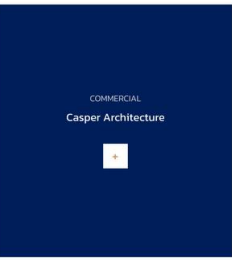

From initial planning and design to construction and delivery, our professional team provides one-stop service throughout the entire process, strictly controlling every step to ultimately create a high-quality urban space that combines aesthetic value, practical functionality, and environmental friendliness, creating long-term appreciating assets and a comfortable living environment for our clients.

PAGE DISPLAY

The file management interface features a soft color scheme and a lightweight card design, balancing functionality and visual comfort with simple partitions, intuitive progress bars, and a clear list layout.

PAGE DISPLAY

The design combines a monthly view calendar with event detail cards, using colors to distinguish event statuses, paired with an intuitive timeline and a quick new event creation entry, making schedule planning, meeting arrangements, and time management clear, controllable, efficient, and convenient.

The screenshot displays a user interface for a calendar application. At the top, there is a search bar with the placeholder text "Search here...". To the right of the search bar are notification icons (two red circles with the number 2), a megaphone icon, a settings gear icon, and a user profile icon for "Casper Admin".

The main section is titled "Calendar" and shows a monthly view for "September, 2021". The calendar grid has columns for days of the week (Monday to Sunday) and rows for dates. The current date, September 25th, is highlighted with a red border. Various events are shown as horizontal bars across the days: a purple "Event" on Wednesday the 2nd, a red "Event" on Thursday the 3rd, a blue "New Event" (08:04 - 10:23 AM) on Tuesday the 8th with a "3 more" link, a green "New Event" (08:04 - 10:23 AM) on Friday the 11th, a red "New Event" (08:04 - 10:23 AM) on Monday the 14th, a red "New Event" (08:04 - 10:23 AM) on Wednesday the 23rd with a "3 more" link, and a blue "Event" (Pass) on Saturday the 5th and Sunday the 6th. A "Month" dropdown menu and a red "+ Add New Agenda" button are located in the top right of the calendar view.

Below the calendar is a "Schedule Details" section with four task cards, each with a blue square icon and a "View Details" link:

- Web Design Creation**: 2 Task
- Annual Meeting Community**: 2 Task
- Server Maintenance**: 2 Task
- Projects Meeting with Client**: 2 Task

A vertical sidebar on the left side of the interface contains several icons: a home icon, an envelope icon, a group of people icon, a dollar sign icon, a document icon, a folder icon, a calendar icon (which is highlighted with a white circle), and a list icon.
